

Silicon Turnkey Solutions Inc., (STS) receives BAE Systems, Chairman's Award

The 2011 Bronze Award is in recognition of STS' outstanding contribution for the development, evaluation and space flight readiness of a multichip module.

This was a technical collaboration for BAE's next generation and innovative multi die solution. STS was recognized for its core competency and technical contribution in designing and manufacturing a space grade solution.

BAE's corporate management acknowledged STS as a noticeable participant in this joint technical engineering solution.
