## **Marti McCurdy Assumes Role as Vice President of Silicon360**

**Milpitas, Calif. - April 22, 2013** – Silicon Turnkey Solutions is proud to announce that Marti McCurdy has been named Vice President of its Silicon360 division. In her 2 years as Strategic Enablement Manager, Marti expanded STS's offerings into Silicon360's diversified line of products. With over 20 years of managerial and entrepreneurial expertise, Marti McCurdy is strategically responsible for leveraging the STS and Silicon360 core strengths towards new products and redesign offerings for semiconductor life cycle management.

Marti has been a pioneer in the field of ultrasonic applications and has worked in spearheading semiconductor standards in the field of Non-Destructive Testing. Additionally, she has accelerated the introduction of a products portfolio and turnkey product design & management initiatives. As a previous CEO of a products representation company, she brings in an expanded bandwidth to the Silicon360 management team with renewed business focus on its productization road map.

Please join us in congratulating Marti on her new role and wishing her continued success at Silicon360.

### **About Silicon360**

Silicon 360, a division of Silicon Turnkey Solutions, is a comprehensive domestic provider of secure, fully screened and qualified semiconductors to the military, aerospace, industrial, medical and commercial markets. A wide range of manufacturing, assembly, reliability, and test capabilities provides technical and business solutions for semiconductor devices throughout their lifecycle from design to inventory management. Additionally, Si360's reengineering solutions provide its military and aerospace customers with a long-term supply chain of ruggedized products.
