Jim Rush joins the Sales Team at Silicon360

Milpitas, Calif. USA: Nov. 4th, 2013 - Silicon360 (Si360), a division of Silicon Turnkey Solutions (STS), is pleased to welcome Mr. Jim Rush as the newest member to their Sales team.

Jim Rush brings more than 25 years of Hi-Rel microelectronics experience to his new position. Most recently, Mr. Rush was with Aeroflex Microelectronics Solutions for 15 years as a Regional Sales Manager, responsible for a large portion of the east coast. Prior to 1998, he spent 5 years as a Technical Sales Manager at Advanced Micro Devices (AMD) and Future Electronics. Jim also held positions in engineering, marketing, and sales at Harris Semiconductor.

Jim earned his Bachelor's of Science degree in Electrical Engineering from Rutgers College of Engineering.

About Silicon360

Silicon 360 (Si360), a division of **Silicon Turnkey Solutions (STS)** www.sts-usa.com, is a comprehensive domestic provider of secure, fully screened and qualified semiconductors to the Military, Aerospace, Industrial, Medical and Commercial markets. A wide range of Manufacturing, Assembly, Reliability, and Test capabilities provides technical and business solutions for semiconductor devices throughout their lifecycle from design to inventory management. Additionally, Si360's reengineering solutions provide it's Military and Aerospace customers with a long-term Supply Chain of ruggedized products.

Silicon360 plays a crucial role in DMSMS, providing a wide variety of Certified Enhanced Devices (CED) for purchase. These are COTS components that have been thoroughly and rigorously qualified for more demanding deployment.
